Bunds

A fantastic place to  
having fun with friends  
and there is a good place  
to have a relax.

老 外 街

## Concepts

The bund is a place that suitable for the young people, such as college students or the people who work at daytime, they can come to there for enjoying the relaxing environment there and if you want, you can come into a coffee shop to sit down to talk freely with your friend or colleagues. And it is a place that worth to have a visit at night, which is super beautiful!

### Concepts

Saebyeol Oreum is an Oreum in Aewol, Jeju City.

It was named "Saebyeol" because it was like a lonely star in the early evening.

In autumn, the entire Oreum is silver with silver grass, and the Wild Fire Festival is held on the fifteenth of lunar January.

The entire oreum burns, creating a spectacular view as if a volcano erupts.

Ukimido hall

## Concepts

It's called ukimido hall. and located in Nara park which is famous for deer. There are three features of this building. First, the shape of roof is hexagon. I think it is unique shape. Second, it is above the pond called Sagiike. I think it is only this building which is above the pond in Nara. And you can row a boat at the specific time and season. Finally, you can take beautiful pictures. There is a chance to take pictures when the building is reflected in the pond. Also, you can see the beautiful senary depending on the season. For example, in fall, you can take pictures with autumn leaves. Moreover, when it is snow, the roof is covered with it and you can take fantastic pictures in winter. If you visit Nara, you will spend wonderful time at this place, especially above seasons. Thank you!!
